

TREGUS
accessories

Tregus manufacturing extraordinary fashion, every day.

Work with TREGUS to develop labels and trims, or let us work alongside your nominated labels & trims supplier, whichever you choose we make it our business to work how you need us to. From simple woven labels to complex swing tickets, branded buttons to the whole POS kit and caboodle, we have it covered.

Nominated labels & trims supplier:

- All labels & trims are stored in a locked room.
- Labels and trims are counted in and out (reports on stock levels can be requested at any time)
- To avoid any possibility of your labels & trims falling into the wrong hands and being used for black market products.

In-house developed labels & trims:

- We use a separate labels & trims supplier to our factories.
- This gives us more control over the development process and to reduce unit costs per item.
- It also allows for multi product, multi supplier sourcing where we provide the labels & trims for your brand to avoid any subtle differences between labels and trims between each supplier.
- Stocks can be stored with us for call off if you have multiple supply bases or shipped directly to you or your own distribution.
